

# Manufacturers Can Take Off in the Cloud. Why Not Your Business?

Improve collaboration, universal access, mobility and business innovation—  
regardless of size.

Cloud-based computing offers compelling capabilities that businesses should take advantage of. According to a Saugatuck Technology report<sup>1</sup>, manufacturing companies of all sizes can benefit from the cost savings and flexibility offered by cloud-deployed ERP.

## More Businesses See Value in the Cloud

Companies of all sizes have implemented a range of cloud-based solutions or have plans to do so in the near future.

### ERP/Business Mgt Software

### Finance Management

### HR/HCM

### Marketing/Sales/Customer Interaction Mgt

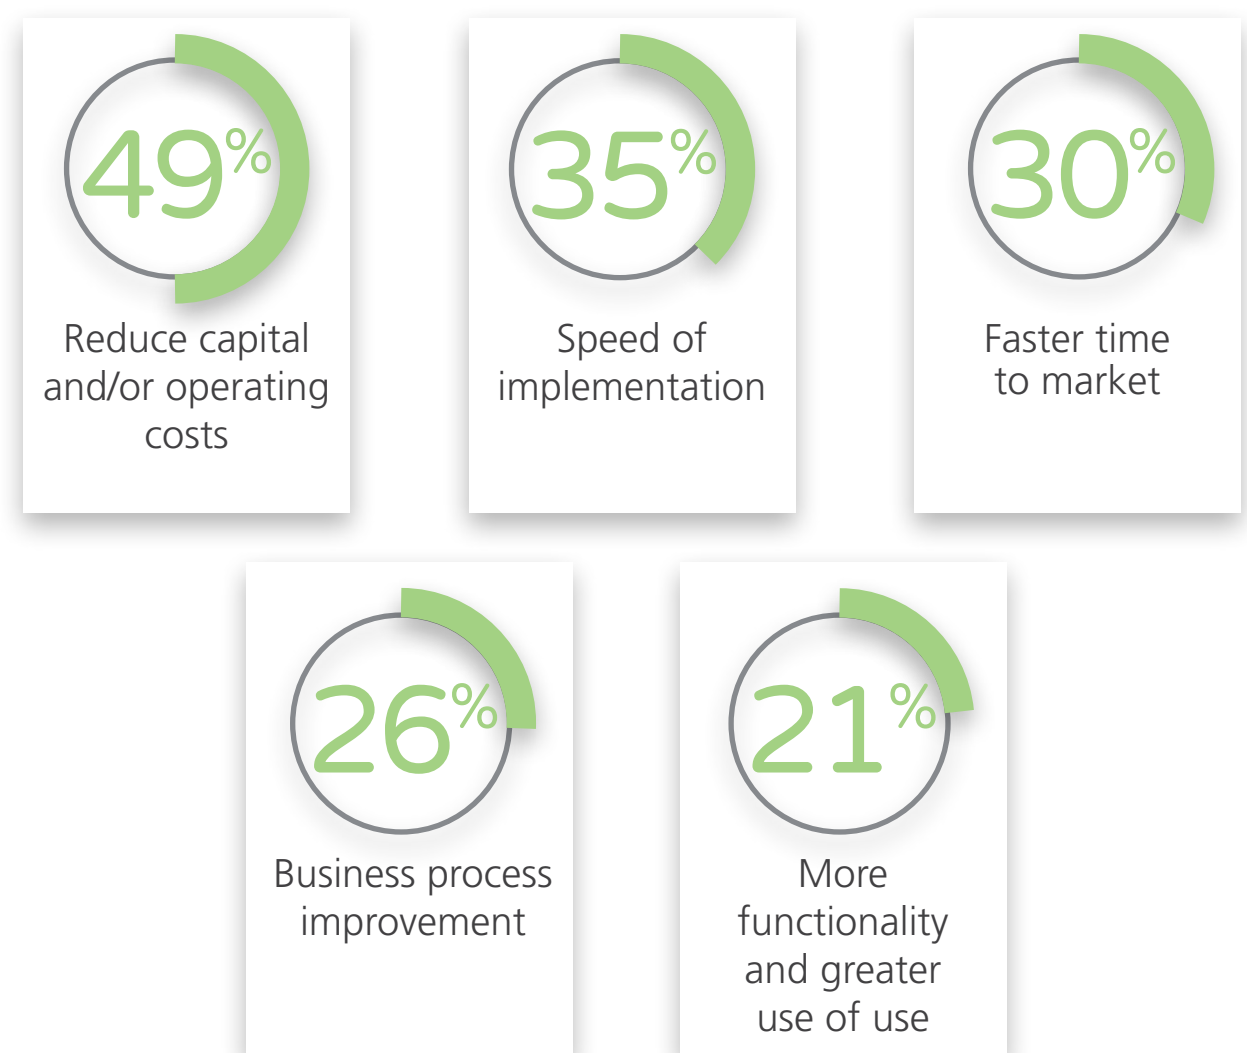

## Need a Reason to Make the Leap? Take Your Pick.

Businesses with 2,000 or fewer employees are motivated to move to the cloud for a variety of reasons.

- ✓ Greater control of processes and output
- ✓ Improved collaboration and flexibility
- ✓ Cost-effective growth opportunities
- ✓ More agile business processes
- ✓ More capacity to manage data and processes

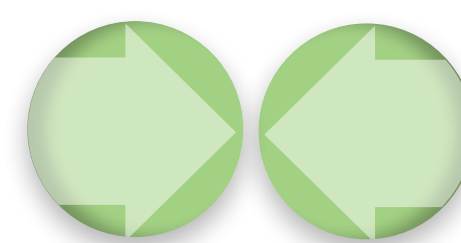

## The Quest for Efficiency

Businesses of all kinds look to the cloud to enable measurable efficiencies.

## Choose a Cloud-Based ERP Solution That Meets Your Needs

Keep these factors in mind when selecting your cloud-based ERP vendor.

### Alignment

How well does the solution map to your business processes?

### Adaptability

Can the solution accommodate changes in your business?

### Performance

Does the solution have the necessary scale?
